

Dinedor

A burglary occurred between Thursday the 2nd of January and Monday the 6th of January at a property in Dinedor. An outbuilding was broken into and tree surgeon equipment was stolen.

Rotherwas

Overnight Thursday the 9th of January to Friday 10th of January some fuel was taken from a lorry at Rotherwas Industrial estate. The victim only left small amounts of fuel in the tanks so offenders were only able to take a small amount.

Below I have added an update from Golden Valley's last email briefing.

Animal Carcasses

The police are currently working with Herefordshire Council in order to catch individual's) dumping bags of sheep and rabbit meat, bones and carcasses and we would like your help in doing so. These items have been dumped in the Golden Valley and South Hereford during the last month.

The first report was received 16th December, this was passed to Animal Health as it was initially believed to be farm-related. It is not known if they were of the rotted or butchered variety. These were dumped in the Longtown area.

Following this incident a further three were reported on 2nd, 6th and 7th January. This included five carrier bags stuffed full of animal bones which are believed to be sheep bones, half skinned butchered rabbits and other food waste. These items were dumped in several different locations, some in Allensmore and one near to the Callow.

If you see any vehicles or people behaving suspiciously or anyone dumping items please ring 101 and pass us as much detail as you can including registration numbers and/or descriptions of individuals. As always your safety is paramount so don't try and do this if you feel you are putting yourself in danger.

Positive Policing:

Two local officers from Herefordshire assisted in helping a female out of the river in the early hours of New Years Day. The two Officers located the lady shortly after a 999 call was made to Police. The Officers managed to prevent the barely conscious female from drifting off with the current and eventually managed to remove the female from the water. Quick thinking and action from two brave Officers.

Happy New Year to you all!

Kind regards
Kevin
