Option B

Satellite Broadband for Communities

What does it cost?

This depends on the following:

- ability to use the existing wireless network infrastructure
- number of connections
- maximum download & upload speeds required

Marches Media are....

- A Herefordshire-based company that understands the frustrations of large broadband suppliers, especially their technical help desks
- Technical specialists with 9 years experience solving Broadband, WiFi & IT challenges in rural environments
- All about providing long-term solutions
- A growing business that prides itself on providing exceptional levels of service and support

Other services we offer

- Computer support & advice
- Virus removal
- Data backup & recovery
- IT tuition & training
- Computer networking
- Website design, hosting and troubleshooting
- IT equipment procurement
- Computer security audits
- Event WiFi

Customer feedback

“We have been using a satellite broadband system for 6 years and our Internet connection has improved dramatically. We would recommend this system to anyone who suffers from a poor broadband connection.” **Lord Darnley**

“Marches Media are great. They totally understand that I am not IT literate, they get my business and are totally solution-focussed.” **Peter Dunne**

Thanks so much for fixing this. You are a rare IT star. **Sir Peter de la Billieré**

“Thanks for all your advice so far. I’m feeling rather optimistic about coming into the 20th Century and possibly the 21st later!!” **Mike Allen**

“Many thanks for installing our satellite broadband. It is wonderful to have such an excellent service and to be able to drop our dependence on the erratic service provided by the phone line. Well worth the investment and I would recommend it to anyone.” **Andrew Pace**
